EDUCATION

Bachelor of Science in Computer Science, Major in Artificial Intelligence and Web Development, at University of San Jose - Recoletos, Basak Campus, Cebu City, Philippines, on May 20, 2023

CAREER OBJECTIVE

As a junior-level software developer, I've done projects and prioritized the development of scalable and well-documented code. I thrive in collaborative environments yet possess the autonomy to drive projects independently, eager to immerse myself in a dynamic environment where I can leverage my skills to contribute to meaningful projects and improve my skills as a developer.

INDUSTRY SKILLS

- Javascript
- XAMPP
- Dart – Flutter Dev
- Python
- MySQL
- Git
- HTML/CSS
- PHP – Laravel Framework

WORK EXPERIENCE

Wonita Corps. – Software Engineer

- Worked as a software engineer for a startup project for 6 months, contributing to the development, and conceptualization phases of the project, played a key role in configuring the database and designing user interfaces for a mobile application
